Escambia County Farmers Federation
The Escambia County Farmers Federation is a membership organization built by farmers as an advocate for agriculture, family values, and good government to improve life for residents of Escambia County and Alabama.

Members enjoy hundreds of benefits, including access to great insurance rates and personal service from hometown Alfa agents.

The Escambia County Farmers Federation also provides support to other entities within Escambia County that build leadership, strengthen character and promote the importance of agriculture in our county and state.

Some of the programs that Escambia County Farmers Federation supports include the Escambia County 4-H Steer Show, Junior Cattlemen’s Association, Fatal Vision Program for Escambia County High School students, Distinguished Young Women Program and FFA programs within our county.

The Escambia County Young Farmers Program engages and challenges young farmers in the county to be involved and serve their communities through agriculture. The Young Farmers Program participates in several statewide programs each year. The Young Farmers also help with the Alabama Farmers Federation Fatal Vision Program presented to high school students as a way of helping young people understand the dangerous effects of drinking and driving.

The Young Farmers Committee encourages members to be active in politics and their community and to be advocates for agriculture. Members of the committee also attend the State Young Farmers Conference and the state annual meeting to stay informed on government and agricultural issues impacting our agriculture communities.

Alabama’s 2009 Outstanding Young Farm Family, Gaylan Shelly and two of his daughters, Breah and Alana, enjoy spending time on the tractor.

Auburn University student and scholarship recipient Raven Beasley of Escambia County was honored at the Alabama Farmers Federation (AFF) 2014 Scholarship Recipients Luncheon Aug. 23 at the Grand National Hotel in Opelika. Beasley is studying agricultural communications. The $1,750 scholarship was funded by the Escambia County Farmers Federation and the AFF’s Alabama Farmers Agriculture Foundation. From left are AFF President Jimmy Parnell and Beasley.

Escambia County ranked first in the state in cotton production in 2010. Shelly Womack, above, looks at cotton grown on her family farm.

Late afternoon work at the grain bins on David Womack’s farm.

Feeding time for the cattle on The Booker farm in Huxford.

Escambia County ranked fourth in the state in peanut production in 2010.
